Evaluation Process Overview

- After the referral form has been received, E.B. Evaluations, Inc. will review the information you have provided and follow-up with you if clarification is needed.
- Attempts will then be made to schedule the evaluation as soon as possible.
 - Evaluation scheduling will likely occur in two parts if intelligence testing is needed.
 - The first evaluation appointment will be spent interviewing the individual, as well as possibly completing some assessment measures.
 - The second evaluation appointment (if needed) will involve intelligence testing and other additional testing not completed during the initial appointment.
- The evaluator will review all information collected (e.g., collateral records, testing results, interviews with individual and relevant others, etc.) and write a report answering the referral questions you provided above.
- Once complete, the evaluation and invoice will be mailed to you. If you would like, a brief review of the evaluation findings may be requested and will be conducted via telehealth or in person depending on the evaluator's availability.
